

International Calling

The standard International Access Code (011) is used by all long distance companies. You may use any of the long distance companies serving your area by first dialing their five-digit access code (10XXX). Otherwise, your long distance calls will be handled by the long distance company picked to the phone being used.

Direct Dial: 011 + country code + city code + number
 Operator Assistance: 01 + country code + city code + number

Country Names & Code Numbers are Bold
 City Names & Code Numbers are Plain
 Time shown is hours ahead or behind Eastern Standard Time

After dialing international calls, allow at least 45 seconds for the ringing to start.
